

Dear ELCA Members:

You have the right to know!

The ELCA, through its employee health benefits plan, will pay for any and all surgical abortions performed during the first five months of the unborn child's life, no questions asked. The money that pays for these abortions comes from you, the members of ELCA congregations. That is, **your offering dollars fund a health benefits plan with extremely unrestricted abortion coverage!**

Polls have shown that a majority of Americans are opposed to their tax dollars being used to pay for abortions, so it follows logically that a majority of ELCA members are also opposed to their church offering dollars being used to pay for abortions—or would be if they knew. Their consciences are being deliberately violated without their knowledge.

Of all the problems related to the ELCA's departure from Biblical teaching and historic Christianity, this one must grieve God the most.

It is time to get out of this denomination!
